

**Order Code** DGLMPS01

**Overview** A certified DALI-2 compliant Power Supply for a single line of the Digital Addressable Lighting Interface (DALI) open standard protocol for lighting.

Each DALI line in an installation requires a dedicated DALI power supply for correct operation.

This unit provides power for one DALI line that may contain lighting fixtures including emergency lighting, fluorescent or LED lamp, colour changing lighting, conversion devices, switches, sensors and interface devices. Each of these DALI devices draws power from the DALI line which is provided by the DALI Power Supply.

- Features**
- Ensures the maximum current delivered to a DALI line will not be exceeded.
  - Indicators for displaying the status of the mains supply connection and the DALI line.
  - Nominal DALI current 238 mA, guaranteed minimum DALI current of 225 mA.
  - DIN rail mounted.
  - Complies with DALI standard IEC 62386-101.
