“OZUNO have developed a range of DALI-2 Push buttons and Rotary dials packed with advanced features and functionality to suit any application

Quick to commission with switches in DALI broadcast mode out of the box when connected to a DALI power supply

Easy to install: Fits most Australian wall plates. Connect straight to the DALI line

Control scenes across your DALI network

4 mA draw on the DALI line

Adjustable LED backlight and nightlight function

Local support available for troubleshooting and installation advice

DALI Lighting Control. Made brilliantly simple with RAPIX DALI-2 Modular LED switch range.

The new RAPIX range of DALI-2 light switches that connect directly to the DALI line and include built-in LED indicators.

The new range of light switches comprises two push button styles and a rotary, with optional accessories for small and large dials.

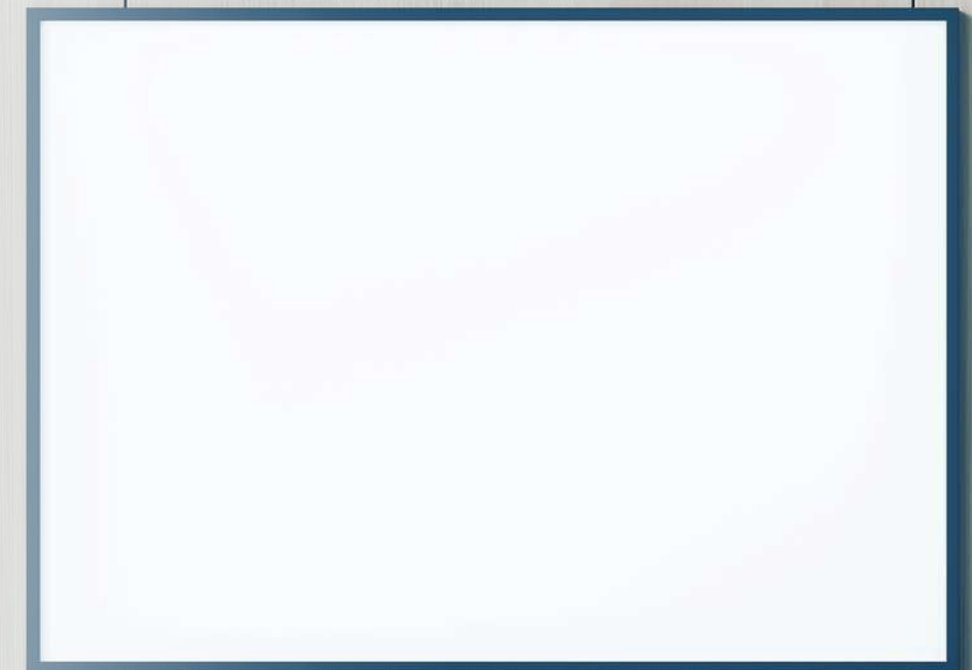

Secondary slave push buttons and rotaries can be added to create a two-button and two-rotary switch. These can be mixed and matched without limitations.

Both push buttons and rotary are compatible with a wide range of switch plates from most major Australia and New Zealand suppliers.

Key Features:

- DALI-2 Certified
- ON / OFF / Dim Up / Dim Down
- Control both Tuneable White and RGBW Colour
- Scene Setting / Timers
- DALI Broadcast out of the box when connected to a DALI power supply
- LED Backlight and Nightlight Function
- Fits most Australian and New Zealand Wall Plates
- Only 4 mA DALI Power Consumption

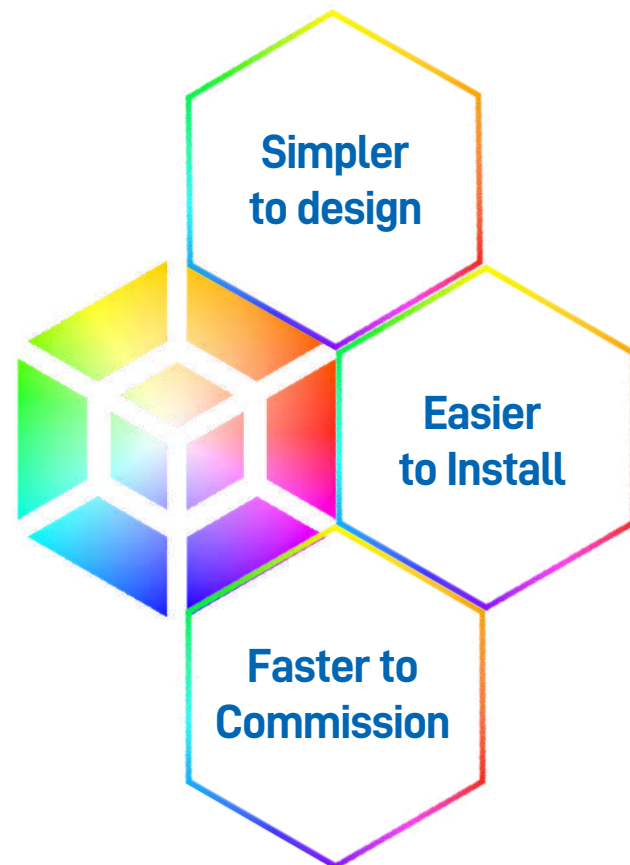

RAPIX DALI-2 Switch for Colour Control

Looking to add a splash of colour? The RAPIX DALI-2 Modular LED Switch range has your solution covered.

Via the RAPIX Addressing software or the RAPIX Integrator software, you have the ability to customise your RGBW colour solution exactly for your requirements.

From the RAPIX Addressing or RAPIX Integrator commissioning software you can set and configure the following:

- **Colour Wheel, with a choice of up to 73 colours**
- **Scene Selection based on preset colours**
- **Fade times and transitions from colour to colour**
- **Set different colour schedules when installed with a RAPIX DALI-2 Zone Controller**

Connects directly to the DALI Line

Powerful **Tuneable Control** with RAPIX DALI-2 Rotary Switch

Tune into your circadian rhythm with the RAPIX DALI-2 Modular LED Switch Range.

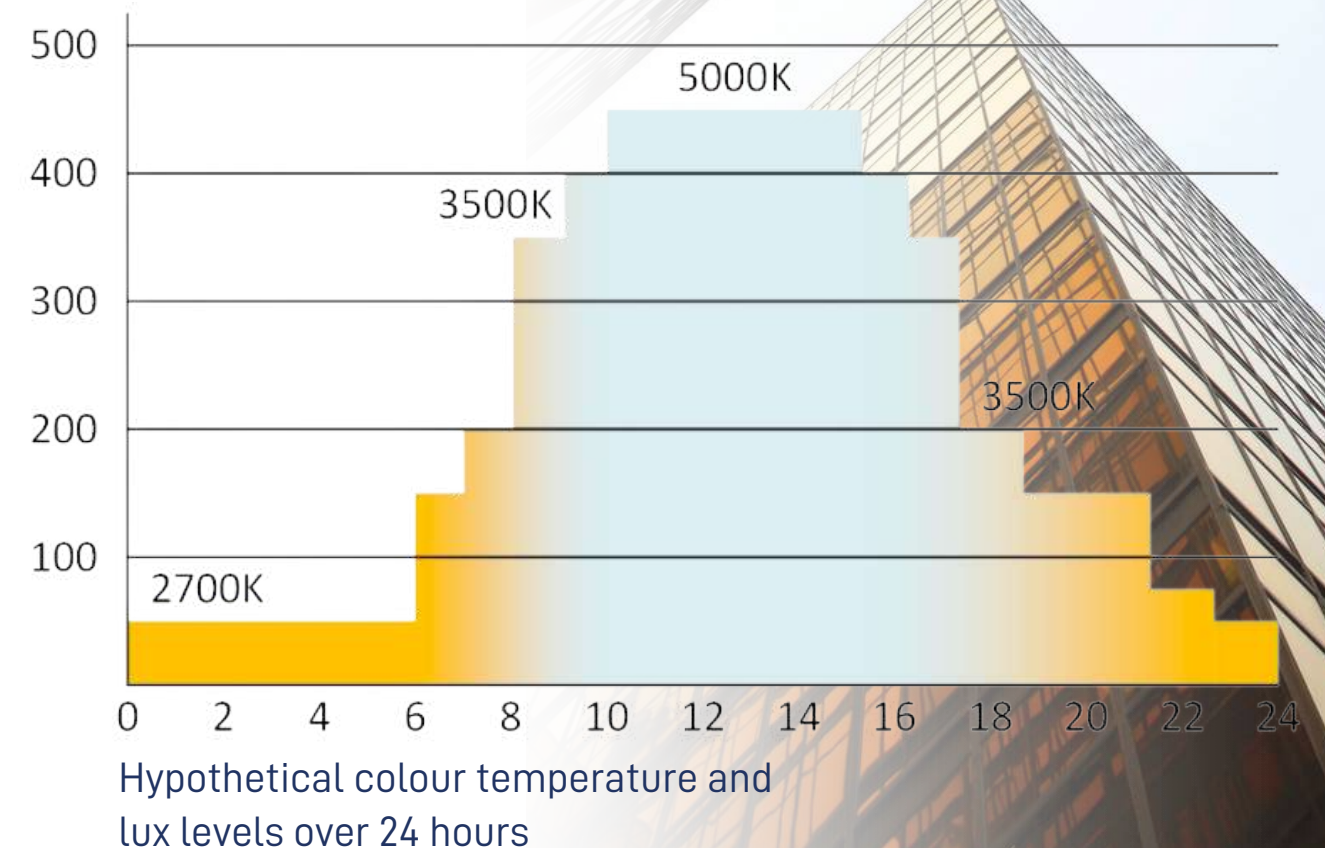

The new RAPIX DALI-2 switch range includes powerful DALI Type 8 Tuneable White control, allowing easy change of colour temperature with push of a button or the spin of a dial.

The adjustment features of these new switches can work stand-alone, or hand in hand with RAPIX DALI Zone Controllers. A Zone Controller can add further features, such as scheduled colour temperature change during each day

- **Toggle On / Off & Dim Up / Dim Down**
- **Scene Selection based on preset colours**
- **Start or cancel a timer / recall a fixed level**
- **Circadian lighting schedules can be programmed when installed alongside a RAPIX DALI-2 Zone Controller**

Designed for commercial spaces, healthcare and education facilities

Product Range

Rotary Dial - Master

Rotary Dial Master unit for pushbutton and rotary control. Master Unit – only 4 mA DALI current draw

RAPIX Rotary Modular Switch (Master)
Code: DGOZ-DSW30M-RT (Rotary Dial)

Push Button - Master

Push button Master unit for pushbutton and push/hold control. Master Unit – only 4 mA DALI current draw

RAPIX Modular Switch (Master)
Code: DDGOZ-DSW30M-PC (Classic button)
DDGOZ-DSW30M-PD (Diva button)

Rotary and Push - Slave

A Slave unit connects to a Master for a second gang. Mix push and rotary in any combination. Slave adds a further 1 mA DALI current draw

RAPIX Classic Modular Switch (Slave)
Code: DGOZ-DSW30S-PC (Classic Button)
DGOZ-DSW30S-PD (Diva Button)
DGOZ-DSW30S-RT (Rotary Dial)

Accessories

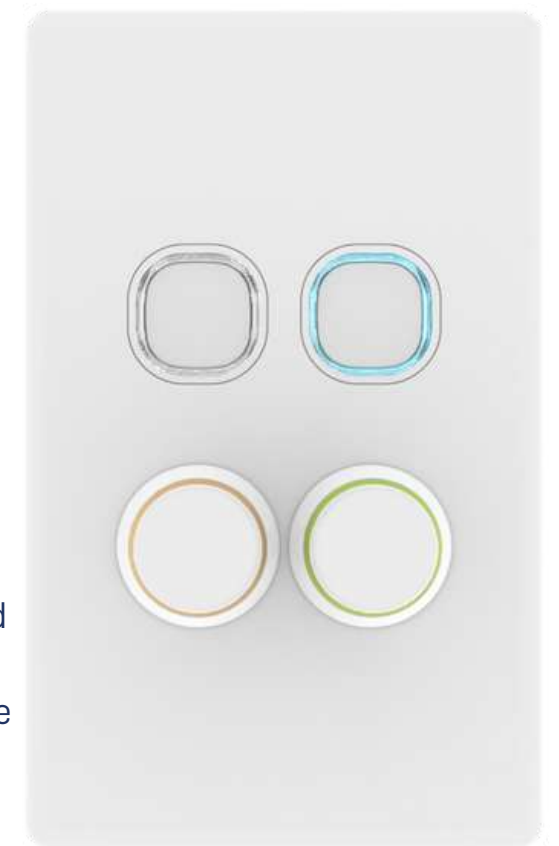

- Large White Dial
- Black Dials in small and large sizes
- Coloured snap-in Bezels for push button master and slave. Colours orange, green and blue.
- Coloured silicon rings for all dial sizes. Colours orange, green and blue

Mix and Match different styles

The combinations with the RAPIX DALI Modular LED switch range are endless.

- Add a Push Button Slave to a Rotary Master.
- Or a Rotary Slave to a Push Button Master.
- The choice is yours and all programming can easily be configured in Rapix Addressing and Rapix Integrator.
- Need a 3, 4, 5, or 6 button? Simply add more masters and connect directly to the DALI line. eg. A 6 Button light switch would include 3 Master Push Buttons and 3 Slave Push Buttons - the same for rotary switches.
